## WORK EXPERIENCE

### Software Testing Internship | Bransys

May 2023 - July 2023

As a Software Testing Internship, I was responsible for conducting test cases, reporting bugs, and providing feedback on software performance. I also participated in team meetings and contributed to the improvement of testing procedures.

- Conducted manual testing on various features of the software
- Assisted in creating and executing test plans
- Reported and documented software bugs and issues

### Web Freelancer | Upwork

January 2024 - Present

As a web freelancer, I was responsible for building, designing, and maintaining websites for various clients. I also provided services such as web development, graphic design, and SEO optimization to help businesses establish an online presence. Satisfying clients' needs and deadlines was always a top priority.

- Developed and designed websites according to client specifications.
- Ensured websites were responsive and optimized for various devices.
- Troubleshoot and resolved any issues with website functionality and performance.

### Software Developer | Neocom AD Skopje

March 2024 - June 2024

As a Software Developer, I was responsible for creating, testing, and maintaining software applications. I collaborated with other team members to develop new features and resolve any issues with the software. My job involved writing code, performing code reviews, and ensuring that the software met quality standards.

- Developed and designed software applications to meet client specifications.
- Collaborated with cross-functional teams to troubleshoot and resolve software issues.
- Conducted thorough testing and debugging of software to ensure optimal performance.
